Subject:- TRANSFER - Land - Bellary Taluk and Town - S.No. 506/A1 -
 District Judge's Bungalow to Central Jail Bungalow -
 Proposals - Submitted.

S.No. (606) A/1 classed as Government poramboke (District Sessions Judge's Bungalow) of Bellary town is proposed to be transferred to the Jail Department for the use of the Jail Superintendent's bungalow. The land proposed for transfer measures 5.28 acres and is now occupied by the bungalow and compound of the Superintendent, Central Jail, Bellary. The Public Works Department has separated this portion from that occupied by the District Judge's Bungalow and allotted it to the Jail Department for use as Jail Superintendent's bungalow.

2. The cost

27/ 2/ 15/ 2. The cost of the land at Rs. 600/- an acre is Rs.3168/-.

There are trees on the land. The tree value is Rs.85-11-0.

It is reported that there are no wells or tombs, on the land.

The Judicial, the Jail and the Public Works Departments have no objection to the proposed transfer of S.No. 506 A/1 from the Judicial to the Jail Department. I request that sanction may be accorded for the transfer of the land noted above, from the Judicial Department to the Jail Department. M 1 B

Buildings - Bellary - District Judge's quarters - Exclusion
of cost of site - Revision of Rent.

The building with site for the residence of the District Judge, Bellary was acquired under the Land Acquisition Act - Vide G.Os. Nos. 262-W, dated 20th February 1911 and 733-W, dated 25th May 1912 - and the entire sum of Rs.25,000/- paid therefor was shown as the capital cost of the building in the data statement sanctioned in G.O. No. 1627-W, dated 14th August 1913.

4. In column 1 of the schedule in the notice under section 9(2) of the Act of 1894 issued by the Revenue Divisional Officer under date 1-8-1911, the land was described as "Inam S. No.506-2 land covered by lease bungalow with buildings thereon". In the copies of title deeds (Sale deed and transfer deed) kept in the Collector's office file as also in the owner's letter dated 25th November 1910 on page 10 of G.O.No. 262-W, dated 20th February 1911 ~~on page 10 of G.O.No. 262-W dated 20th February 1911~~ it is stated that the land in question was held under "a grant of perpetual holding under the official seal of the Governor in Council". The Collector of Bellary now reports that the land has been classified as Government dry (patta) in the old diglott register printed in 1892 and that its classification as "Inam" in the notice referred to above is apparently a mistake for "Government dry". He also reports that the sum of Rs 25,000/- awarded as compensation represents the cost of lands buildings, wells and trees and all that existed on S.No.506-2 at that time - vide copy of his letter enclosed. The Board agrees with the Collector's view. In the circumstances, I request orders of Government as to whether the cost of land should now be excluded from the capital cost for purpose of calculating the rent and the rent lowered accordingly.

Referred to the C.E. (G. B. & R.)
for remarks.

2 It will be seen from the
Board's refce that the extent of the
land to be transferred to the jail
dept is 5.28 acres. But from the letter
of the E.E., Bellary Dm, forwarded
with the C.E.'s No. 2010 Ae/39-19
of 25-4-40, it is observed that
an area of 19.19 acres of land
was separated from the compound
of the Dist Judge's bungalow and
annexed to the jail Supt's quarters.
The large diffce in the extent
of the land requires verification.

3 It is presumed that S. No. 506-
as given in the Board's refce
corresponds to ^{the old} S. No. ~~506-2~~ ⁵⁰⁶⁻² given
in the C.E.'s letter No. 3243-Ac/39.

Letter No.3499-G/B.103. dated 20th November 1940 from the Executive Engineer, Bellary Division, Bellary, to the Chief Engineer, P.W.D., Buildings and Roads.

Sub:- Land - Bellary - Bellary Taluk and Town -
Transfer of the Compound of the District
Judges Bungalow to the Jail Department -
Report Submitted.

Ref:- Your Endorsement Nos. 2010-AC/39-34 dated
13-9-40 and 619-AC/40-2 dated 9-11-40.

The extent of land namely 19.19 acres separated from the compound of the District Judge's bungalow and annexed to the Jail Superintendent's quarters is the entire area in S.No. 506-A West of line A B running North to south of the plot. This includes approach roads from the Bungalow of the Jail Superintendent to the Municipal Main road - vide portion hatched in pencil in the sketch enclosed.

But on enquiry at the Taluk office, it is learnt that the area of 5.28 acres marked in red lines in the sketch has been fixed by the Revenue Department only in consultation with the Superintendent, Central Jail direct (vide copy of letter from the Superintendent to the Tashildar enclosed) without either referring to this Department or the District Judge. Hence the discrepancy. The proposal of transfer only of 5.28 acres as suggested by the Jail Superintendent and accepted by the Revenue Department which is exclusive of all the approach roads to the bungalow will create the difficulty of maintaining the roads by the P.W.D. under the

annual

-/-

B/ annual repair estimates.

The S.Nos. 506-A and 506/2 are identical and the presumption is correct.

Under para 2 or
H 9-10-40

The extent noted in the Diglot register of the Revenue Department is 83.98 acres as fixed in the resettlement operations and no further information is readily available in the Revenue Department to trace as to how the 95.19 acres were ~~xxx~~ cut down to 83.98 acres. But however, the Sub Divisional Officer, Bellary is asked to submit his report in consultation with the Revenue Department regarding this discrepancy.

A separate report regarding the reduction of the extent of the compound of the District Judge's quarters to about 34 acres will be submitted on or before 30-11-40 on receipt of further report called for from the Sub Divisional Officer, Bellary who has been asked to demarcate the extent of land actually required by the District Judge as the Municipality has refused to undertake demarcation due to non-availability of a qualified Surveyor with them.

Submitted to Government with reference to their memorandum No.4400-C/40-1 dated 2nd September 1940.

h 9-10-40

2. A further report on the following will be submitted to Government on receipt:-

(i) how 95.19 acres were cut down to 83.98 acres in the Diglot register of the Revenue Department and

(ii) the actual reduction to be made in the compound of the District Judge, Bellary.

In going through the plan sent with your above
quoted letter I find the transfer of land enclosed by means
of barbed wire fencing wherein the building of Superintendent
lie in S.No.506-A/1 can only be transferred to the Jail ~~Superintendent~~
~~Tahsildar~~ Department and not all the land in S.No.506/A.1.
The area not enclosed by barbed wire is only a peramboke
and I object to its transfer to the Jail Department as it
will increase the service taxes.

 (not recd here)

The extent of the land attached ~~to~~ at present to your residence is 95.19 acres and it is proposed to be reduced to 34.34 acres as per plan returned countersigned with your No.4516 dated 4-9-39. This reduced area excludes a good portion of the approach roads to the bungalow from the main road. But it is considered necessary that the approach roads should also be included in the extent of the compound as otherwise they cannot be maintained in good condition for not belonging to the bungalow. Hence this approach road to the main Municipal road on the south side which occupies an area of 0.51 acres taking only 20 feet as its width will be added to the compound area already agreed to thus making a total area of 34.34 + 0.51 or 34.85 acres of the compound.

I therefore request you to kindly let me know whether you approve of the above proposal.

Copy of letter from the Executive Engineer, Bellary Division, Bellary, to the Chief Engineer, P.W.D., Buildings and Roads, Madras, No.3992⁹ dated 26th December 1940:-

Land - Bellary taluk and town- Transfer of the compound of the District Judge's bungalow to the Jail Department.

In continuation of this office No.3499 G., dated 10/11-12 Supra 20-11-1940, I have to report that 506-A (measuring 83.98 acres) is the present S.No. assigned to the compound of the District Judge, Bellary, in resettlement of 1922, while 506/2 (measuring 95.19 acres) was the S.No. noted in the resettlement of 1892.

The enclosed list of S.Nos. bordering on the compound p 21 infra of the District Judge's bungalow shows that the total extent of this surrounding land is not altered in the resettlements. Most of the adjacent lands are either porombokes, public roads or pathways. The reduction in the extent of 506-A (corresponding to the old S.No. of 506/2) might have occurred in the resettlement of 1922. There are only 3 S.Nos. in the list enclosed which are private holdings viz., S.Nos. 947, 948/A and 506/E. It is also learnt from the Revenue Department that all the concerned records with plans etc. have been forwarded to the Survey Office, Madras. They are separately being addressed in the matter, result of which will be duly intimated.

Endorsement thereon by the Executive Engineer, Bellary Division,
No.80 N., dated 7th January 1941:-

Copy to the Chief Engineer (Buildings and Roads), Madras, for
information, in continuation of this office No.3992-G., dated 26-1-40.

Letter No.Re.1881/40-A.7 dated 18-12-1940 from the Collector, Bellary, to the Secretary to the Board of Revenue, Madras:-

Subject.- Transfer- Land- Bellary district- Bellary taluk and town- S.No.506-A/1- Judicial to the Jail Department- sanction.

The Tahsildar, Bellary, reports that S.No.506-A of Bellary

village measures 83.98 acres and stands registered in the Revenue accounts as "District Judge's bungalow" poramboke. The Executive

Engineer, Bellary, first proposed the transfer of 19.19 acres from

S.No.506-A to the Jail Department. The Tahsildar, Bellary, obtained the consent statements of all the officers concerned (Executive Engineer, Bellary, District Judge, Bellary). But the Superintendent,

Central Jail, Bellary, objected to the transfer of such a vast portion of 19.19 acres consisting mostly of one site on the ground that it would only increase site tax. He wanted only the site actually covered by the barbed wire fencing. The Tahsildar, Bellary, after personal

inspection, agreed with the Superintendent, Central Jail, Bellary, and the revised subdivision records were not prepared according to the

suggestion of the Superintendent, Central Jail. The Tahsildar, however, has failed to obtain the consent statement of the District Judge after the subdivision records were revised. I am directing the

Tahsildar, Bellary, to revise the subdivision records in accordance with the District Judge's original consent statement, in consultation

with the Judicial, Jail and P.W.D.

2. S.No.506 of Bellary village was a minor circuit field measuring 192.15 acres and during subdivision survey, this extent was sub divided as S.No.506/1 to E. The Tahsildar, Bellary, reports that the area of S.No. 506/2 which is now denoted as S.No.506 A is reduced from 95.19 acres to 83.98 acres. There is a difference of 11.21 acres and it is reported that it is not possible to say in which of the subdivisions this extent is merged. The Tahsildar definitely reports that the old S.No.506/2 correspond to the Resurvey No.506-A. The presumption of the Government is therefore correct.

Endorsement thereon by the Executive Engineer, Bellary Division, No.80 M., dated 7th January 1941:-

Ref:- Letter No.195 dated 11-1-41 from the
District Judge, Bellary to the Executive
Engineer, Bellary.

--

In your letter you refer at first to the approach roads
and later to the approach road, and it is not clear whether you
propose to include both the present approach roads in the com-
pound of the Judge's bungalow.

It would be an advantage if both approach roads could
be included, as the eastern road joins the main road at an angle
which makes it difficult to turn back to the west, and an
approach road on the western side is almost a necessity. For
that purpose I would be willing to take over the western --
approach road as well as the eastern, and allow the occupants
of the Jail Superintendent's bungalow to use it. If that is
not possible, perhaps you would be able to have an arrange-
ment by which I take over the western road as far as the junc-
tion with the jail bungalow approach road, and have the use of
the rest of the road or the road from there to the main road
could possibly be taken over by the two bungalows jointly.

I do not think that the recent proposal by the Revenue
department for the sub division of the whole compound between
the two bungalows, by which the western approach road is in-
cluded in the sub division allotted to the Jail department,
need prevent the western approach road now being allotted to
the District Judge's bungalow because that proposed sub division
is really only a temporary measure for the purpose of alloca-
ting the service taxes between the two bungalows. It would be
completely superseded by the present proposed reduction of both
compounds, and if the present proposal for the jail bungalow
compound does not include the western approach road, the latter
would lie in assessed waste and could be allotted to the Judge's
bungalow or in the alternative to the bungalows jointly.

With these remarks I approve of the proposal to add the
approach road or roads 20 feet in width to the compound area.

Land-Bellary Taluk and Town-Transfer of the Compound of the District Judge's Bungalow to the Jail Department.

Ref: Your No. 619-AC/40-10 dated 15th January 1941.

125 ant
A copy of No. 195, dated 11th January 1941 which was the reply of the District Judge Bellary to my No. 3887 G dated 15th December 1940 was submitted to you in this office No. 94 G dated 23rd January 1941.

In which the District Judge, made 3 alternative proposals.

1. He was willing to take over both the eastern and western approach roads allowing the occupants of the Jail Superintendent's Bungalow, the use of the western approach road.

2. To take over the western road as far as its junction with the Jail Superintendent's approach road from his (Jail Superintendent's) Bungalow and to use the rest of the road from this junction to the Main Municipal Road or 3. To have the road from the Junction with the Jail Superintendent.

In this connection, I had a personal discussion with the Superintendent, Central Jail and with the District Judge, Bellary

P^{no}
The Jail Superintendent is willing to take over the whole of the western approach road and allow the use of this road to the occupants of the District Judge's Bungalow from the junction to the main road.

The District Judge was willing to take over the whole of the eastern road and the portion of the western road from his Bungalow up to its junction with the Jail Superintendent's Bungalow road and to have the use of the rest of this road up to the Main Road.

The present arrangement as agreed to both by the District Judge and the Jail Superintendent is as follows:--

The District Judge's Bungalow Compound will consist of

A. B. C. D.	34.34 acres
Road from M to N to a width of 40'.	0.51 acres
Road from O to P to a width of 40'.	0.54 acres
Total.	<u>35.39 acres</u>

vide plan at ②

I also informed the District Judge that a width of 40' will be necessary for the road and he has consented to this.

The Superintendent, Central Jail is willing to have his compound EFGH measuring 5.28 acres and the road QPR measuring 1.24 acres totalling 6.52 acres. So, for purposes of Service tax, the area of the Compound of the District Judge will be 35.39 acres and that of the Superintendent, Central Jail 6.52 acres.

For Revenue purposes the whole block of 83.98 (S.No. 506A) is proposed to be divided into two Sub-Divisions along line JJ running North to South measuring 19.19 acres and 64.79 acres. This need not necessarily mean that for purposes of service tax 19.19 acres will be allotted to the Superintendent and 64.79 acres to the District Judge.

② A plan showing the apportioning of the land between the District Judge and the Superintendent Central Jail is also submitted herewith.

Short title Buildings - Government Residences - Reduction in the extent of compounds.

Read—the following:—

From the Executive Engineer, Bellary Division, No. 1041-M,
dated 3rd April 1941.

The costs of fencing (Rs. 7,500/- in respect of the District Judge's residence and Rs. 4,150/- in the case of the residences of the Conservator of Forests) are very high. Presumably the costs are based on barbed wire fencing. The Executive Engineer should consider whether a cheap type of fencing, e.g. live fencing or bamboo trellis will not do for the purpose. The Municipality should be consulted in regard to its concurrence with such a type of fencing.

2. The ~~SM~~ Executive Engineer should report how the vacant land in respect of the District Judge's residence is proposed to be utilised.

He should also furnish information as to what Municipal tax has to be paid by Government on the excluded vacant land.

The reply of the Municipality promised by the Executive Engineer is awaited.

As already stated by me the reduction in the size of the ~~compound~~ compound was proposed with a view to reducing the municipal tax and you also stated in your No.813-G/G.183, dated 28-3-40 that the general question regarding reduction of service taxes was pending orders of the Superintending Engineer, Bellary. At the moment, there is no question of transfer of any land to the Forest Department. The point is that while about 5 acres or 8 acres is to be considered as attached to the residence for purposes of municipal taxes the rest of the area may be declared as crown land from which no income could be derived and hence as fit to be exempted by the Collector from the levy of any municipal tax under Section 83(1) of the Madras Dt. The presumption that the cost of fencing is based on barbed wire fencing is correct. The Bellary Municipality preferred wire fencing to other forms such as reptile etc., say not half up - vide letter No. Dis. 4420/40-C.1. dated 12-8-1940 of the Commissioner, Bellary Municipality (Copy already sent to the office No. 1041M dated 3-4-1941). However the Municipality is addressed to state whether live fencing or bamboo trellis will not do. The Commissioner agrees to the live fencing being put up provided it is kept neat and tidy (vide copy of Commissioner's letter No. 2399/40-C.4. dated 25-4-41 enclosed). The cost of live fencing the compound of the District Judge's quarters, Bellary works out approximately tons. 50/- and that of the Conservator to Rs. 28/-.

2. I had already reported in my No. 1041 M., dated 3-4-1941 that if the Municipality treats the extent of vacant land in respect of District Judge's residence it will be leased out for grazing. The approximate annual lease amount on 42.07 acres of excluded vacant land would be about Rs. 10/- and tax that has to be paid to the Municipality will be Re. 1-0-0 per annum. The approximate reduction in general tax is worked out in the margin for favour of information.

I am herewith sending copies of the notes exchanged
between us during our conversation this morning on the above
subject at my office. I will move the Council to agree to your
proposal to separate the extent of 42.07 acres of land from
the premises of the Bungalows under reference. As I explained
to you in person, the Council cannot agree to the exemption
of the land from the payment of the property tax on this extent.
There is no objection however to treat the land as agricultural
land and assess it as such, on its annual value. The capital
cost of S.No.506-A as entered in my demand Register is
Rs. 71,250/-.

Copy of Note to the Executive Engineer, Bellary Division,
dated 25th April 1941.

As I have explained to you during our personal dis-
cussion now, if the land proposed to be separated from the
compound of the District Judge and Jail Superintendent's
bungalows is to be treated as waste land, it is to be assessed
as non-agricultural vacant land, on the basis of extent
if on the other hand it is proposed to be utilized for

6.

called agricultural purposes, it will be assessed on its annual value, i.e. on the basis of a reasonable rental which it ~~may~~ be expected to fetch if leased out from month to month or year to year.

2. As regards the proposal to exempt the land from Municipal tax, I wish to state that under the present bad financial condition of the Municipality, the Council will not be in a position to grant any such exemption.

3. Regarding the live fencing proposed for the compound appurtenant to the bungalows, (District Judge's, Jail Superintendent's and Conservator of Forests) I have no objection to the erection of line fencing as ~~it~~ ^{long as} it is kept clean and it is trimmed and pruned properly so as not to breed reptiles.

K. Venkatadri,
Commissioner.

Seen. The lands now proposed to be excluded ~~from~~ from the compounds of the Judge's and Superintendent's bungalow as well as that of the ~~conservator~~ ^{forest} Conservator's will be used as pasture lands. They may therefore be treated as agricultural lands and assessed on the rental value

*Put up an acknowledgment

My dear Ramunni Menon,

The service taxes (for water, drainage and lighting) on the District Judge's bungalow at Bellary are Rs.40-8-0 a month, an amount disproportionate to the rent, chiefly on account of the enormous size of the compound - 95 acres.

2 Part of this compound was taken away for the Jail Superintendent's bungalow. No reduction has been made on that account, and although the Jail Superintendent's bungalow has been finished and occupied for several years, I am still paying the service taxes on its compound. I asked the Executive Engineer last June to have the area of the compound and the service taxes reduced on that account, but so far this has not been done.

3 Last September there was a proposal (which I understand arose from Government) to reduce the size of several of the Government compounds in Bellary in order to reduce the taxes to a reasonable amount. At that time a smaller compound for the

50

Judge's bungalow was decided on in consultation with me, and was marked on the map. At the same time I asked the Executive Engineer to have retrospective effect given to the proposed reduction of the service taxes, by a retrospective reduction under G.O.No.231 of 10-7-1939, suggesting that it be reduced from Rs.40-8-0 to Rs.20-0-0. No further results are apparent, and in a recent reply by the Executive Engineer to reminders on the subject, he merely says that particulars called for by Government have been furnished. This does not seem to explain the delay in this matter, and I believe that at least one cause of the delay, is that there has been no actual demarcation of the reduced compound on the ground, and that this is because the different authorities concerned have differed as to who should demarcate it. That was about 6 months ago and nothing seems to have been done since then.

Financial relief of this sort is useless unless it is given effect to without unnecessary delay. At the present rate of progress, unless I am allowed the retrospective effect I have asked for, the benefit of any reduction will be given only to my distant successors. The local officers appear to be unable to make any

progress in the matter, and I would be obliged if you could take it in hand and have it put through at once.

My dear Ramunni Menon,

Subject:- Service taxes on the District Judge's bungalow at Bellary - Refce. your D.O. No.1081-C/40-2. dated 8th March 1940.

16 miles

The Executive Engineer has proposed to reduce the extent of the District Judge's bungalow at Bellary from 95 to 34.34 acres and has addressed the Bellary Municipality to state if it is agreeable to the demarcation as proposed. The further report promised by the Superintending Engineer on receipt of reply from the Municipality has not yet been received and he has been specially reminded for it. The Superintending Engineer has remarked as follows on the points raised by the District Judge and I agree with him:-

"The proportionate reduction in service taxes can be given effect to only from the date from which the excess area of the land over and above 34.34 acres is separated from the compound of the quarters, after the demarcation is agreed to by the Municipality. The question of giving effect to this reduction with retrospective effect from the date of commencement of the service taxes as required by the District Judge does not arise so long as the full extent of the existing site remains attached to the Bungalow. Even the orders in G.O. No. 231-Finance dated 10th July 1939 do not contemplate any reduction in service taxes in such cases with retrospective effect."

2. A consolidated report in respect of the residences in all Circles will be sent up to Government

Subject:- Buildings - Government residence of the Dt. Judge, Bellary - Service taxes- Inflation on account of lack of limits to compound.

Reference:- Chief Engineer's Memorandum No. 2010 Ac/39-17 dated 6-4-40.

Para 1 of the Chief Engineer's Memorandum.

A part of the compound of the Dt. Judge's bungalow has been annexed to the Jail Superintendent's quarters. The area so annexed is 19.19 acres. A plan showing the bifurcation of the compound of the Dt. Judge's quarters, Bellary for transfer to the quarters of the Superintendent, Central Jail, Bellary was sent to the Tahsildar of Bellary in this office No. 1883 G/B.103 dated 15-7-39 after obtaining the counter-signature of the Dt. Judge. Necessary approval of the Collector of Bellary for the proposed bifurcation is awaited. The Tahsildar is also being reminded on the subject. The correspondence is now between the Tahsildar, the Revenue Divl. Officer and the Collector and it is understood unofficially that the proposal of bifurcation is being submitted by the Tahsildar, Bellary to the Collector of Bellary for his approval. It is also submitted that the District Judge, Bellary has been informed in this office No. 1254 M dated 12-7-39 that, pending the settlement of the question of bifurcation, he might continue to pay municipal service taxes and that necessary credit would be afforded to him in due course if necessary.

From the Executive Engineer, Bellary Division, No.
1015 G dated 10/11th April 1940.

Subject:- Buildings - Residences - District Judge's quarters,
Bellary - Recovery of service Taxes.

In the Accountant General's letter No. 725 M.M. dated 20th February 1938 (communicated with Chief Engineer's Memorandum No. 629 Ac/38-1 dated 25th March 1938) the Executive Engineers were required to make the necessary revisions of standard rents in respect of Government residences occupied by all India Service Officers and to work out the sums recoverable from these officers as service taxes from 9th February 1938 onwards. As a portion of the compound of the District Judge's quarters, Bellary was utilised for the construction of the Jail Superintendent's quarters before 9th February 1938, the Executive Engineer should have excluded the service tax relating to the area of 19.19 acres of land annexed to the Jail Superintendent's quarters, for purpose of assessing the service taxes payable by the District Judge from 9th February 1938. The Executive Engineer should explain at a very early date why this was not done.

*0000 p 36 d 22 no.

(T)*

2. In his letter read above the Executive Engineer states that he is awaiting the approval of the Collector to the demarcation of land, before taking action to refund to the District Judge the excess service tax recovered from him. The Executive Engineer need not wait for the collector's approval but should make the necessary refund to the District Judge on the assumption that the area of 19.19 acres stated by the Executive Engineer to have been annexed to the Jail

Superintendent's

Superintendent's quarters is correct. The rebate of service tax for this area should be allowed to the District Judge from 9th February 1938, and the Jail Superintendent will have to pay the service tax for this area from the date of his occupation of the quarters. If after the Collector's approval is received, the actual area of the compound of Jail Superintendent's quarters is more or less than 19.19 acres, then the necessary refund or extra charge may be made.

My dear Ramunni Menon,

Ref: Your D.O. 1081-C/40-1 of 25.10.1940.

You remember that last April I called to see you in Ooty about the matter of the reduction of the service tax on the District Judge's quarters at Bellary.

2. One point in this is the reduction on account of the part of the compound taken over by the Jail Department over four years ago. That part of the compound has been occupied for the purpose of building or occupation ever since, but I am still paying the taxes on it and every attempt made to recover them is meeting with some annoying delay.

K
B | recommendation are now met by a statement that a reduced area of 5.28 acres has been fixed by the Revenue Department for the Jail bungalow, and that the refund can only be made after receipt of orders from Government regarding the transfer of the land.

I have not been consulted as to the proposed alteration in the area thus to be allotted to the Jail Department, although I am the party principally concerned, and I strongly object to this being done behind my back after the matter had already been settled. I would request you to have orders on it withheld until I am consulted as to the reasonableness of the proposal.

Vide papers in Memo no 22408/39-2 (T)

3. Another matter in this connection is the proposed reduction in size of the compound. You told me that this will take sometime because it is to be applied all over the Presidency. Even so there seems to be considerable delay about the matter, and I have been unable to get any information locally as to the stage that has been reached in this proposal. It is two

years since I approved of the boundaries for the reduced area and I am told that part of the cause of delay is still merely a conflict between the various departments as to who should carry out the demarcation!

The extent of the land of the land to be transferred according to the Board's Ref. is 5.28 acres. But this varies much from the extent of 19.12 acres reported by the E.E. as having been separated from the compound of the D. Judge's bungalow and annexed to the jail Subd's quarters. The C.E. (E.B. & S.) may be asked to explain the discrepancy.

3. There is also diff. in the notation of the S. No. of the land as mentioned in the Sub-dn records subd by the Board and as given in the C.E.'s letter (extracts on p 9 C.F.). The C.E. may be consulted on this point also.

Mr. Barter was accordingly informed that the C.E. had taken steps to refund the excess service tax collected vide D.O. on p 14 of (B). But from B on p 36, ante, it would appear that the refund has not yet been made spending the orders of Govt on the questions of transfer of a portion of the compound ~~land~~ to the jail Dept. It is not quite clear why the instructions of the C.E. at A in p 13 of (B) could not be carried on. Perhaps the A.G. is objecting for want of specific orders of Govt on the point. A report from the C.E. may be called for. Mr. Barter's D.O. may also be acknowledged. Two draft D.O.s are ruled for approval.

Board of Revenue's Reference No. B.No. 3441/40-1 dated 9-8-1940. I repeat that it is not true as stated therein that the Judicial Department has no objection to the proposal. My consent was obtained to a proposal for a transfer without informing me that the proposal had been changed since I originally approved of it and leaving me under the impression that I was being asked only for formal consent to the original proposal.

I have not yet been able to get information of the location and limits of the area proposed for the Jail Department but from its size I suspect that it is restricted to the area of the buildings and garden and

My dear MacEwen,

A/11-24 If you will refer to the Board of Revenue's No. B.3441/40-1 dated 9th of August 1940 to the Home Department asking for the transfer of part of the Judge's bungalow compound at Bellary to the Jail Department, you will find a

11-24 statement in the letter from the Collector that the Judicial Department has no objection to this transfer.

11-22 That is not correct. There had been a previous proposal for the transfer of an entirely different area, 19.19 acres as against this 5.28 acres. That proposal had my approval and had reached the stage of being sent up to the Accountant-General by the Executive Engineer for an order for the refund of service taxes already paid by me on the transferred land. When the matter was in that position and while I was away at Ootacamund I received a communication from the Revenue Department asking me for formal sanction for the transfer of S.No.506/A-1. I agreed, naturally assuming that my sanction was required as a formality, for the original proposal. I was given no information of the fact that

It was originally proposed to separate 19.19 Ac.
of land from the St. Judge's compound and transfer
it to the jail Supt's Quarter. On the jail Supt's
objecting to the transfer & allotment of this
large extent it has subsequently been proposed

last month and suggested that retrospective effect (from January 1938) should be given to the reduction in service taxes resulting from the reduction of the compound, and that the taxes on the part taken over by the jail Deptt. should be paid by that deptt. from January 1938. It is submitted that separate recovery of service taxes in respect of Govt. residences occupied by All-India service officers is being made only from 1.2.38. In this connection, please see portions marked in red on pp. 2, 7, 12 & 13 of D.O. No. 1081 C/40-4 of 6.5.40. The C.E. instructed the E.E. in April 1940 to refund to the St. Judge the excess tax collected from him on the assumption that 19.19 Ac of the St. Judge's compound had been separated from it and annexed to the jail Superintendent's compound, and to recover from the jail Superintendent, tax on this area (19.19 Ac) from the date of his occupation of the quarters. He (the C.E.) also stated that if later on it was found that the area of the jail Superintendent's compound was more or less than 19.19 Ac, then the necessary adjustments in regard to tax might be made. Hence it seems that no mention about retrospective effect need be made in the

Order Ms. No. 1726, dated 14. 7. 1941.
Resolution Rout.

The papers read above relate to the delimitation of the compounds of the residences of the St. Judge and the end of the jail at Belley. The C.E. (B + R). has proposed that the compounds of these two residences may be fixed as follows:—

acres,
Residence of the St. Judge 35.39.
End of the jail } 6.52
Total 41.91.

According to the above proposals, an expenditure of Rs. 78 has

106 3

to be incurred ^{on} for the provision
of live fences to the two ^{not omitted}
residences and an extent
of 42.07 acres will be
Excluded from the existing
Compounds and leased out
for grazing. It is reported
that the municipal tax on
this excluded land will be
10% of the amount realized
by leasing it.

WY POSTCOPY OF TELEPHONIC MESSAGE.

From - The Personal Assistant to the Chief Engineer, P.W.D.
To - The Assistant Secretary to Government, P.W.D.
Dated - The 22nd July 1941.
No - 619 Ac/41-20.

Land - Bellary - Compound of the residence of District
Judge and Superintendent of the Jail - Delimitation -
Reference - G.O.No. Mis. 1726 P.W., dated 14th July 1941

Only a sum of Rs. 50/- is mentioned therein as the
amount required to provide the compound of the District Judge's
residence, Bellary with a live fencing and Rs. 28/- as the
amount required to provide live fencing to the Conservator's
residence - Vide Chief Engineer's Endorsement No. 619 Ac/40-19,
dated 8th May 1941.

As the orders issued in the G.O. relate to the deli-
mitation of the compound of District Judge's residence only
Rs. 50/- has to be mentioned in the G.O. instead of Rs. 78/-.
A corrigendum to the G.O. may be issued accordingly.

Land - Bellary - Residence of the District Jail Superintendent -
Delimitation - Ref. your telephone message dated 31-7-41.

The Jail Superintendent's residence was constructed within the compound of the residence of the District Judge, Bellary. The delimitation proposed is to exclude the extra land not required for both the residence of the District Judge and that of the Superintendent, District Jail Bellary and to put a live fence separating the excluded land from the land appurtenant to both the buildings. vide B.P. plan sent with Chief Engineer's endt. No.619-AC/40-15 dated 5-3-41. as specific extent of land was allotted now only for the Jail Superintendent's quarters and as the land excluded is taken from the compound of the District Judge's Bungalow, no separate fence is necessary for the residence of the Superintendent, District Jail, Bellary. Necessary corrections may therefore be
